Hatvan, 21 January 2019

3 The aim and the activity of the company

Our company aims at extending the knowledge of secondary school students by new methods based on using IT tools.

On our continuously developed webpage we want to extend their knowledge on European Union, European culture and global problems with the help of presentations, tasks, tests using new methods.

Preparing tests and teaching materials is our students' task. The participating teachers play the role of coordinators. In this way we intend to develop our students' skill at working independently or in a team and we want to increase their sense of responsibility and their management skills.

In the course of Erasmus program thanks to the international cooperation their language skills will also improve.

4 The period of the operation

The period of the operation of the company: September 2018-August 2020.

5 Decision-making

Decision-making in all the important questions concerning the company takes place at the general assembly, where all the originators are invited. Their decisions are made by open ballot, and by majority.

6 Manager

Everyday decision making is the responsibility of the chief manager.

7 Range of duties

The range of duties are shared as follows:

Teaching materials, tests are checked professionally by teachers specialists in the topics.

The teaching materials, tests are checked linguistically by English language teachers.

The person in charge of the webpage: László Pataki.

8 Winding-up the company

Our company undertakes maintaining the webpage, updating and supplementing its content for five more years after the professional and financial closing of the project.
